

KRONOS - Getting JAVA to run in Internet Explorer (IE)

Step 1

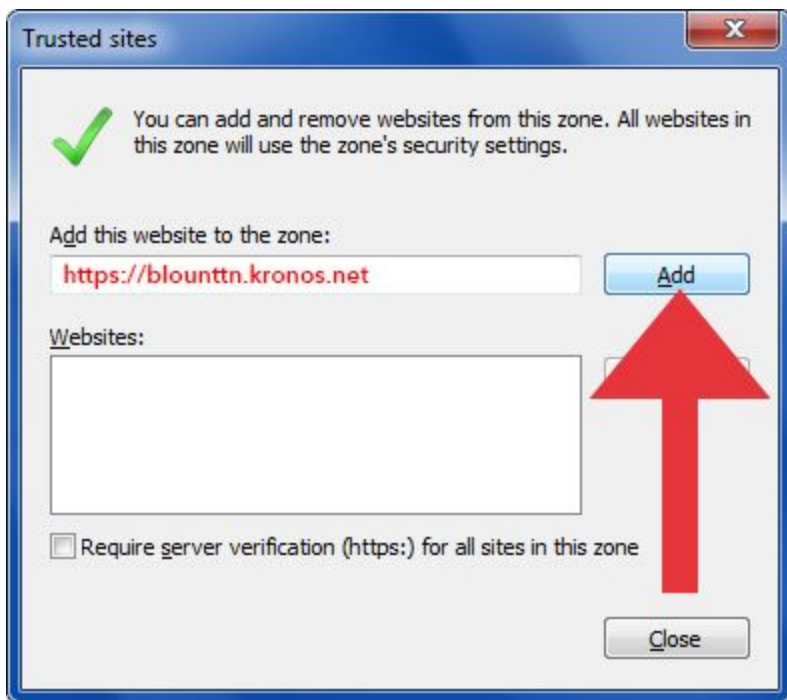

Click on "Tools" (Gear Icon) then click "Internet options".

Step 2

Click the "Security" Tab then click the "Trusted Sites" icon and press the "Sites" button.

Step 3

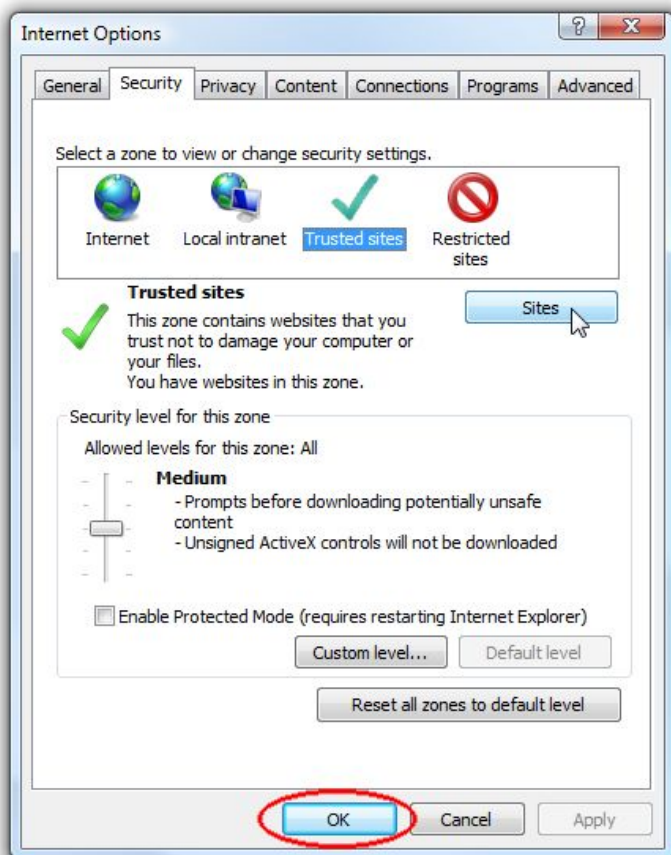

Type in the following address:
https://blounttn.kronos.net

Then click the "Add" button to move the website address to the "websites" box.

Click "Close"

Step 4

Click "OK" to close the window. Login to Kronos normally.
